WILLIAMS'

FT. WAYNE DIRECTORY

FOR 1868-9;

TO WHICH IS APPENDED

A UNITED STATES POST OFFICE DIRECTORY.

FIFTH ISSUE:
COMPILED BY WILLIAMS & CO.

PUBLIC LIBRARY, FORT WAYNE & ALLEN CO.
GOVERNMENT DOCUMENTS COLLECTION
FORT WAYNE, INDIANA

FORT WAYNE, IND.:
N. P. STOCKBRIDGE,
No. 104 Columbia Street.
1868.

Vanduzen & Tift, Buckeye Bell Foundry.

Church, Academy, Factory, Plantation, Steamboat, Fire, and Signal Bells. Manufacturers of and Dealers in Brass Cocks, Globe Valves, Steam Whistles, Brass Castings, Spelter Solder, Babbitt Metal, Iron Pipe and Fittings, Hose and Couplings, Steam and Water Gauges.

102 and 104 East Second St..

CINCINNATI. - OHIO.

E. J. Schisler

Ft. Wayne, Ind.

PREFACE

TO OUR FIFTH VOLUME.

WE believe that our patrons will find our present ISSUE more reliable than any of our preceding Volumes. The information which it contains is the result of a thorough canvass of the CITY OF FT. WAYNE, superintended by H. THORNTON BENNETT, ESQ., our Assistant Compiler, whose competency and faithfulness have been fully tested by our patrons, in the volumes heretofore compiled by him for the CITY OF FT. WAYNE.

To collect and prepare the matter for a CITY DIRECTORY for publication is a perplexing and difficult task. The nature of the work compels us to seek information from each member of the community—from the intelligent and the ignorant; from the civil and polite citizen and the rough and unlettered resident. Some are unwilling to have their names appear in a City Directory, and purposely avoid the canvasser; others give the information in an imperfect and scarcely intelligible manner. Only through persevering labor and continued watchfulness can an approximation to correctness be attained in a Work of this character. We think, however, that we have in most instances been enabled to overcome the difficulties and obstacles which surround the undertaking, and confidently believe that the DIRECTORY for 1868-9 will be found by our patrons a reliable and trustworthy guide to the Residences and Business Houses of the CITY OF FT. WAYNE.

Our new DIRECTORY, for 1868-9, contains about SIX THOUSAND NAMES, which is a much larger number than is contained in any DIRECTORY previously published for the city; and, judging from experience gathered from the canvass of other cities, we should say, shows that the present population of the CITY OF FT. WAYNE is upwards of twenty-six thousand souls. Within the last five years the CITY has not only greatly increased in population, but the numerous splendid business houses, large manufactories and beautiful residences, erected during that period, are palpable evidences of a great increase in business and wealth, and indicate for the city a still more rapid growth in the immediate future, and demonstrate, beyond a doubt, the power of FT. WAYNE to maintain her proud position in the foremost rank of the great CITIES of the WEST. We predict for the CITY OF FT. WAYNE a rapid increase in population and a progressive and prosperous future.

We return our thanks to the merchants and business men of the City for the patronage extended to the Work, and to the Press, for the many favorable notices published during the canvass, and renew our promise to the public to faithfully labor to make each succeeding ISSUE of our DIRECTORY more worthy of commendation and patronage.

R. HEMINGRAY & CO.,

No. 68 Walnut St., Cincinnati, O.,

MANUFACTURERS OF

FLINT, GREEN & BLACK GLASS,

CONSISTING OF

Fruit Jars, Lamps, Lanterns, Chimneys, Brandies, Hock Wines, Bemi-Johns, Screw Cap Flasks, Tumblers, and a general variety of Table Ware. Also, philosophical Apparatus, and Round & Oval Shades for Artificial Flowers and Statuettes. Solar, Sun and Comet Burners on hand in large quantities.

N. B.—Our PATENT FRUIT JARS, manufactured exclusively by us, stand unrivalled for preserving qualities, and have the best reputation of any Jar in the West.

LIBERAL DISCOUNT TO THE COUNTRY TRADE.

DIGEST OF UNITED STATES PATENT LAWS,

COMPILED BY
KNIGHT BROS.,

SOLICITORS OF PATENTS, CONSULTING ENGINEERS, AND COUNSELLORS IN PATENT CAUSES,

No. 24 WEST FOURTH ST., CINCINNATI, O., and

No. 406 F STREET, WASHINGTON, D. C.

1. **A PATENT** for seventeen years is granted to the first inventor of a new and useful Art, Machine, Manufacture, or Composition of Matter, not heretofore known in this country, nor published or patented in any foreign country. Application fee, \$15. Issue, \$20. Act 1861, Sec. 10.

2. **A CAVEAT** is useful as a precautionary step. In cases where the inventor requires further time or means to mature his invention, and entitles the party (for a year) to notice of any interfering application subsequently filed. Gov. fee, \$10. Act 1861, Sec. 10.

3. **APPLICATION** for Letters Patent, should be made within two years after the first sale, or public use of the invention, and must be accompanied by a Model, (where the case admits of one,) or a specimen of Ingredients and Composition; also, Petition, Oath, Duplicate Drawings, Specification, and Fee, (\$15). It must be made by the inventor, or (if deceased) by his administrator, for the benefit of the heirs. Act 1836, Sec. 6 and 10; Act 1839, Sec. 7.

4. **MODELS** may be of any durable material, avoiding glue, must not exceed twelve inches in length, and should particularly represent the points of invention.

5. **DESIGN.**—A patent for 3, 7, or 14 years, is allowed to any citizen of the United States, who originates a new carving or sculptural composition, or a new shape or configuration of any article of manufacture, or a new, ornamental, or useful design, pattern, or picture, to be worked into, or printed, or painted, or cast, or otherwise attached to any article of manufacture. Gov. fee, \$10, \$15, or \$30. Act 1861.

Photographic illustrations of Designs must be accompanied by the "negatives," to enable copies to be made in the Patent Office.—Holt, Commissioner of Patents, 1857.

An engraved or printed design issued as an object of art, having a value in itself, and intended for sale as such, properly comes within the provisions of the copyright law; but when, however artistically executed, it is not produced for sale as a work of art, but is designed to be affixed in the manner of a label to a manufactured article, it then plainly falls under the act relating to patents for designs, and consequently can not be protected by copyright.—Bishop, Comis's'r of Patents, Aug. 1859.

6. **COPYRIGHT** may be obtained for, 1st. Printed reading matter, forming no part of any ornament or manufacturer's mark; 2d. Charts, musical compositions, and prints or engravings intended for sale as such. Act 1831, Sec. 1.

7. **REISSUE.**—Patents with defective specifications may be reissued in an amended form. Gov. fee, \$30. Act 1836, Sec. 13; Act 1861, Sec. 10.

Where by inadvertence, accident, or mistake, the original patent is too broad, a disclaimer may be filed either by the original patentee, or by any of his assignees. Fee, \$10. Act 1857, Sec. 7.

8. **EXTENSION.**—Application for extension must be made at least three months prior to the expiration of a patent. The chief points to be established, are: 1st, ascertained value of the invention; 2d, amount of loss and profit which have accrued from the invention; 3d, efforts made and difficulties incurred in maturing and introducing the invention. Application fee, \$50. Issue, \$20. Act 1838, Sec. 1; Act 1861, Sec. 10.

9. **FOREIGNERS** may obtain a patent on same terms as a citizen. Act 1861, Sec. 10.

10. **JOINT INVENTORS** are entitled to a joint patent, but neither can claim one separately.

11. **ASSIGNMENTS** may be made previous to application, and should be recorded in United States Patent Office within three months.

12. **A PART OWNER** of a patent may, in the absence of any contract, assign his interest or any fractional part thereof, or he may, either alone or in company with others, purchase or make as many machines as he pleases, and may sell them to others with the right to use or sell them; or he may refuse to sell them, and may rent them; but he has no power to control the action of, nor to exercise any supervision over, a co-proprietor, nor to compel contribution of profits or losses, nor to enforce a partition of the right, nor is either party under any obligation to make the property profitable. Such parties must be regarded as having interests which are distinct and separate in their nature, though derived from the

same instrument; and having the same interests, with the right to use them separately, they can not, for any legal use of them, incur any obligation to each other.—Chapman, J., Supreme Ct. Mass. 1864, p. 225. Allen Mass. Rep.

13. **THE SPECIFICATION** must set forth the invention in such full, clear, and exact terms, as to enable one skilled in the art to which it appertains, to compound and use it without making any experiments of his own.—5 Howard, 4.

14. **ABANDONMENT.**—If an inventor (before application for a patent) knowingly suffers his invention to go into public and general use without objection, it is a dedication of it to the public.—4 Mason, 108.

No patent is held to be invalid by reason of the purchase, sale, or use prior to the application for a patent, except on proof of the abandonment of the invention to the public; or that such purchase, sale, or prior use, has been for more than two years prior to such application for a patent. Act 1839, Sec. 7.

15. **PRIOR DESCRIPTION** in a public work, if relied upon to void a patent, must be such as would be sufficient in a patent.—Parker v. Stiles, M'Lean, Nov. 1849.

16. **AN IMPROVER** upon an original patent has no right to use the original, nor has the original patentee a right to use the improvement without license.—1 Peters, C. C. 399.

17. **MERE COLORABLE DIFFERENCES**, or slight improvements, can not shake the right of the original inventor.—2 G. 91; 54.

18. **A COMBINATION CLAIM** is not infringed by the use of any number of parts less than the whole.—3 M'Lean, 424.

19. **LEGITIMATE COMBINATION**, is where two or more parts act together, in a new way, with a useful result.

20. **MECHANICAL EQUIVALENT** means a substitute known to the art.

21. **THE PRODUCT** of a patented machine is not patent property.—3 M'Lean, 296-97.

22. **LOCAL RIGHTS.**—Patented articles, purchased under a local right can not be sold or used outside of the territory of the vendor.

23. **PATENTEES** are required to mark each article made or used under their patent, or when this is impracticable to mark the package with the word "patented" and the day and year; but infringers, who have been duly notified, are liable, notwithstanding the omission of such marking by the patentee. Act 1861, Sec. 13.

24. **PENALTY** of not less than \$100 and costs is incurred for each fraudulent marking of unpatented articles with the word "patent" or like phrase, or for unauthorized use of a patentee's mark. Act 1842, Sec. 5.

25. **THE INVENTION**, if new, and useful to the public, may be the result either of long experiment and profound research, or of a sudden and lucky thought; or mere accidental discovery. * * * Luck, labor, or inspiration gives an equal right.—Tindal, C. J.

The first inventor has the prior right, if he had reduced the invention to a practical form by drawing or otherwise, and has used reasonable diligence in adapting and perfecting it.—1 Story, 560-566.

There is no doubt that he who has discovered some new element or property of matter, may secure to himself the ownership of his discovery, as soon as he has been able to illustrate its practicality and to demonstrate its value. His patent, in such a case, will be commensurate with the principle it announces to the world, and may be as broad as the mental conception itself. But the mental conception must have been susceptible of embodiment, and must, in fact, have been embodied in some mechanical device, or in some process or art. The abstract must be resolved into the concrete. The patent must be for a thing, not for an idea merely.—Kane, J., U. S. D. C. Pa.

26. **SECRET USE.** The inventor, who, from selfishness, indifference, or caprice, wishes to withhold from the knowledge and enjoyment of his fellow-citizens a discovery which he has made, must see to it, that, in burying his "secret," he preserves proofs of its existence, ready to be produced whenever the action of another and more generous inventor shall summon him to the issue.—Holt, Commissioner of Patents, Nov., 1858.

Net Cash Assets, Jan. 1868, \$4,368,294.74.

CHARTER PERPETUAL.

INCORPORATED 1819.

IN 49 YEARS IT HAS PAID FOR

St. Wayne, Ind.

SKETCH OF FORT WAYNE.

FORT WAYNE, situated on an elevated plain, at the junction of the St. Marys and St. Joseph rivers, has from an early period been a point of great interest. As early as 1700, the French visited it for the purpose of trade with the Indians, and prior to 1719 they established here a regular trading post, and it became one of their most important commercial centers. In the Miami dialect the place was called Ke-ki-ong-gay, and Ke-ki-ouge in the Pottawattamie. Vandreuil, the Governor of Louisiana, writing in 1751, located "Fort Miami" at this point. It was a small stockade fort, built by the French, situated near the St. Marys, probably in the vicinity of the canal aqueduct. The dim outlines of this fort were traced by General Wayne in 1794, and by Colonel John Johnston in 1800.

At different periods four nations have held dominion here. The untutored Indian for centuries; and for half a century prior to the conquest of Canada, the tri-colored flag waved at the meeting of the St. Joseph and the St. Marys. After that, in December, 1760, the British flag was run up in its stead, and a fort erected upon the east bank of the St. Joseph, near its mouth. May 27, 1763, during Pontiac's war, a small garrison stationed there was massacred, through the treacherous influence of the French traders over the Indians. This was about the last exertion of French power on this continent, east of the Mississippi.

The Declaration of Independence, in 1776, was the commencement of an era that established the rule of the United States as the fourth power that reigned over this region, and still reigns, greater than all that preceded it. The sagacious mind of Washington, at an early period, fixed upon the junction of the rivers as of commanding importance for a strong military post, and the main purpose of the campaign of 1791, was for its occupation as a center of military operations for the North-West. His plans contemplated a garrison of one thousand or twelve hundred men, but the defeat of General St. Clair, within a day's march, defeated his well-matured plans, and at that time the American army failed to occupy this favorite rendezvous of the savage Indians—this "Federal City" of the tribes that formed the Miami Confederation.

In 1794 the United States were more successful. After defeating the Indians at the Rapids of the Maumee, General Wayne marched to this

point, and selected here a commanding site for a fort; and in October of that year "Fort Wayne" was completed. From that period, and bearing that name, for now seventy-three years, this has been a center of American civilization and power. It continued to grow in importance until 1825, when the first plat of the town was made, and it was laid out and incorporated as the "Town of Fort Wayne." Since that time there has been a steady, uniform and healthy progress.

From time to time numerous additions have been made to the original plat—November, 1833, the County Addition; October, 1836, Ewing's Addition; and May, 1837, Hanna's Addition, with many others since, that have extended the limits of the town something over two miles east and west, and nearly the same distance north and south, and the population has kept equal pace with its enlarged dimensions.

In 1828 the population of the town and its immediate vicinity was estimated at about 500, and in 1839 it was computed at about 800. In the winter of 1839 a Charter was granted by the Legislature for a City Corporation, and on the 2d day of March, 1840, a vote of the citizens was taken upon the adoption or rejection of the Charter, which was adopted. The population was then about 1,200; in 1850 it reached 4,200, and in 1860 it was 10,300. At the present time, from the rapid growth of the past five years, the population must equal 25,000.

The causes that produced this rapid growth are apparent. The commanding situation of the town, in the center of a large and fertile scope of country that sought this point for trade, with no competing town, and the facilities for export and import, were important elements in its growth. The facilities for this commerce resulted from the important internal improvements constructed so as to make this a leading point in their routes.

The first of these was the Wabash and Erie Canal, completed from the west in 1838, and from the east in the fall of 1842, thus connecting Fort Wayne with Lake Erie at Toledo. By affording the means of shipping direct to the Lake, the canal drew the trade of a large region of country, north and south, immediately to this point. The water power resulting from this improvement furnished facilities for the erection of mills and manufactories, that were of great importance in its progress; and from this period it took a new start, and this impetus continued till the era of Plank Roads, in 1848. These roads were constructed with much energy and rapidity to a great distance in every direction, attracting an increased trade from a large and fertile section of country. Lastly came the Railroads. The Ohio and Indiana Railroad was first located in 1852, and completed in 1854. The Fort Wayne and Chicago Railroad was commenced in 1854, and completed in 1857. These two roads being consolidated with the Ohio and Pennsylvania Railroad, constitute the Pittsburgh, Fort Wayne and Chicago Railway Company, making a line 167 miles in

length, and inferior in importance to no road in the United States, and equal to any in its management and success.

Next followed the Toledo and Western Railway, located in 1854, and completed in 1856, connecting Lake Erie with the Mississippi.

Aside from the travel and freight brought to Fort Wayne, thus adding largely to its commerce, it has the fortunate position of being a central point on these great lines, and hence was the best location for their extensive shops for repair and the building of rolling stock, for both the roads. They therefore erected shops so extensive that they should be visited and examined to properly realize their magnitude and importance.

The Toledo, Wabash and Western Railway Buildings consist of a round-house, 140 feet in diameter, with capacity for 24 engines; brick machine shop, 100 feet wide by 160 feet long; blacksmith shop, 40 feet wide and 160 feet long; wood shop, 30 feet wide and 200 feet long. A brick freight depot, 25 feet wide and 60 feet long; an elegant and convenient passenger depot, 40 feet wide and 100 feet long. These shops and the working of the road give employment to over five hundred men, with a monthly pay-roll of over \$30,000, and an expenditure for material of \$250,000 per month.

The shops of the Pittsburgh, Fort Wayne and Chicago Railway exceed in size and importance in direct ratio with the increased length of the road, and embrace a brick depot 290 feet long by 160 wide, and two stories high; freight house 200 feet by 60 feet; brick office for Vice President, Superintendent and Engineers, 50 feet square, two stories high; transfer house 25 feet by 100. In addition to these buildings for the general business of the road, all the machine work, building of cars, and repair work for the entire Western Division, from Crestline to Chicago, 280 miles, is done here, requiring extensive buildings and an immense expenditure.

A car shop, main building two stories high, 225 feet by 75 feet, with two wings 185 feet by 75 feet, which turns out 30 passenger cars annually, and 50 freight cars per month or 600 a year, and uses 18,000,000 feet of lumber per year, and iron and other materials in proportion. Machine shop for the building and repair of engines, 335 feet long by 110 feet wide, one story, and offices at the south end, two stories, and 30 feet square. Boiler shop, 140 feet by 50 feet, and in the second story, copper and tin shop. A blacksmith shop, 326 feet by 80 feet. Round house 310 feet in diameter, with stalls for 48 engines. Water house 50 feet square, two stories high. Fire proof oil house 30 feet square, two stories high. Paint shop 150 feet by 75 feet, with capacity for eight cars. All these buildings are of brick, and of the most substantial character, and covering over six acres of ground. The men employed and the expenditures are equal to the extent and importance of the buildings. Men in the motive power department, under the control of Isaac Dripps, Esq., are

983; in the transportation department, 538; in road or maintainance way department, 1,330; station agents and telegraph operators, 160; total of men, 3,020. At an expense for labor and material for a single month: Motive power department, \$53,992 67; road, \$49,817 19; transportation, \$30,080 60; total, \$133,890 46. For material in motive power department, \$67,643 53; road, \$81,567 98; transportation, \$3,540 98; total for material, \$152,752 49; total for men and material, \$286,642 95. This vast expenditure for buildings, men and materials, gives a satisfactory solution of the surprise expressed by citizens and strangers alike, at the rapid and substantial growth of our city. The prospect of three other roads to be completed at an early day—the Fort Wayne and Cincinnati, the Grand Rapids and Northern Indiana, already graded the greater part of the way and cars running for twenty miles, and the Fort Wayne and Southern, will tend to continue this rapid growth.

Following the railroad improvements in March, 1855, the Fort Wayne Gas Company was incorporated, and extensive works erected, so as to light the city in October. The growth of the city has required the erection of a new holder 60 feet in diameter, 20 feet deep, with capacity for 58,000 feet of gas. The pipe is extended over seven miles, and the consumption 34,000 feet per day.

A system of improving the streets has been inaugurated, and the result is the Nicholson pavement, that meets the approval of all, is now built over a mile on our principal streets, with ten squares more under contract, and is to be extended as far as the public want demands.

While thus contemplating the public works as the great cause of our rapid growth, private enterprise should not be overlooked, as an equally important element in the rapid increase and prosperity of the city. The extensive water power of our canal and rivers has led to the erection of eight extensive merchant mills, whose manufacture command the highest price in the eastern market; also eight planing mills and sash and door factories, which give constant employment to over 300 men, together with four large steam tanneries, with work for 150 men.

Prominent among private enterprises are our machine shops and foundries. The Fort Wayne Machine Car Wheel Works of Bass & Hanna, with a machine shop 44 feet by 116 feet, blacksmith shop 44 feet by 30 feet, foundry 60 feet by 120 feet, car wheel shop 60 feet by 180 feet, and boiler shop 50 feet by 140 feet—all substantial brick buildings, to which they have added the extensive shops of the Excelsior Agricultural Works. The works give employment to 200 men, with an average pay-roll of \$10,000, and a monthly expenditure for material of \$60,000 to \$80,000.

Besides these, the shops of J. C. Bowser & Co., and Murray & Baker, each with an average pay-roll of \$6,000, and an expenditure for materials of \$30,000. All these works are employed to their fullest capacity and are unable to keep up with the demand for their work, which is of the

most superior character. The large woolen factory of French, Hanna & Co., four stories in height, 105 feet long by 55 feet wide, giving employment to 70 workmen, with a demand for their work that they cannot supply, is another important enterprise. Also the extensive hub, spoke and bending factory of N. G. Olds & Son, a three-story brick building, 50 by 120 feet, with two warehouses, one 30 by 130 feet, the other 25 by 85 feet, and a two-story brick, 50 by 175 feet, employing 150 men, using a million feet of sawed lumber, and making a million and a half of spokes annually, and the large and extensive works of the same character of Brackenridge & Taylor on the canal feeder, together with the works of McElfpatrick & Wilder for the manufacture of handles and agricultural tools. Nor must we overlook the four-story cabinet shop of John M. Miller, 40 by 120 feet, and employing 50 or 60 men, or the cabinet works of Griebel & Fee, and John J. Klachen, nor the extensive planing mills and sash, door and blind factories of Cochran, Humphrey & Co., O. D. Hurd, Clark & Rhinesmith, and A. C. Beaver, giving employment to a large number of men and working up an immense quantity of lumber. These, with numerous other manufactories, of which the limits of this sketch forbid a full description, are all elements of growth and prosperity, and readily account for our rapid progress, that must be permanent with such extensive works to sustain it, supported by a fertile country, and an exhaustless supply of the best timber.

Among the leading dry goods houses in the city are Messrs. Townley, DeWald, Bond & Co., H. R. Schwegman, Abbott & Shoaff, Root & Co., Frank & Thanhauser, C. Orff & Co., A. S. Evans, Allen, Meyers & Co., all of whom do a most extensive business. The firm of Townley, DeWald, Bond & Co., successors to J. W. Townley & Co., and Townleys, Dewald & Bond, was established in 1839, and is no doubt the oldest in the State. The annual sales of this house are now hundreds of thousands of dollars, and with the advantages they possess in purchasing and selling goods, we can see no reason why their sales should be excelled by any house in the West, excepting in the larger cities of Chicago and Cincinnati.

Turning from this view of the public works and private manufactures to the commerce of the city, we find there equal prosperity in every department of trade, not excelled by any city of its population in the West. The dry goods stores number over thirty, some wholesale, with a trade of \$300,000 a year, and retail stores over \$200,000 a year; thirty hardware, iron and stove stores, single stores reaching a trade of \$150,000; and over forty boot and shoe stores, with a heavy trade; seventy grocery stores, some with a trade reaching near \$200,000; twelve drug stores, the trade of a single house being \$250,000; thirty clothing stores, some with a trade of \$150,000; with book and jewelry stores, and all the varied branches of trade, and the credit of no merchants in the West stand higher than those of Fort Wayne.

In capital, banking and financial resources, the city is surpassed by none. It is sufficient to name the three National Banks, the First, Fort Wayne and Merchants', and the extensive banking house of Allen, Hamilton & Co., with a combined capital of not less than \$700,000, to prove the sound basis of our financial condition, to which may be added the Fort Wayne and the Summit City Building and Loan Associations, with a capital of \$100,000 each.

Fort Wayne has also been the great center for the land trade of Northern Indiana. At an early day the United States Land Office was located here, and in 1836 over a million of dollars were paid in one season into the Land Office at this point, and ever since emigration has sought this as a favorable point to select and buy lands. The establishing, in 1844, of the "Indiana Land Agency," which has ever since continued under one management, has been a great aid to those wishing to settle in this region—the sales at the agency amounting to \$200,000 annually.

The most important items in a notice of the advantages of a city, are the intellectual and religious privileges, and in these particulars Fort Wayne stands high. Its daily and weekly papers, with their large circulation, and well supported, are proofs of this. But of her free schools she is especially proud. Four large brick buildings, and two frame, with forty rooms, and forty-five teachers, under the able superintendence of Prof. J. H. Smart. The Eastern Division embraces eight hundred scholars, the Western Division one thousand, the High School and Training School three hundred, and schools south of the Railroad three hundred more, making a grand total of twenty four hundred scholars, with the benefit of fine philosophical apparatus, library, cabinet and gymnasium, all departments giving evidence of good scholarship and able management. Add to these the Fort Wayne Female College, Concordia University, the various private and denominational schools of a high order, together with the Fort Wayne Commercial College, an institution managed with great ability and success, and few towns can boast of higher intellectual privileges and culture. The fifteen churches, some of them of the largest dimensions, and of a high order of architecture, well supported with large and attentive congregations, all speak in the highest terms as to the religious privileges and character of her people.

In the general appearance of the city, in the character and extent of her buildings, embracing over three hundred three and four-story brick stores, some of the highest style of architecture, with a magnificent Court House, costing over \$80,000, and elegant and costly brick dwellings, Fort Wayne is not surpassed; and when we speak of her hotels, the Rockhill, Aveline, Mayer, and other houses, she is not equalled in the country, and all for the enterprise of her population, and are the best evidence of growth and prosperity. The magnificent "Keystone Block," and numerous other stores, the extensive shops, and the large number of handsome

dwellings erected the past year, have attracted the attention and admiration of strangers, and no city in the State has excelled, if any have equalled her in growth and progress, and the promise for the future is fully equal to the past.

With a growth and prosperity founded upon so substantial a basis, little is hazarded in stating that the population of 25,000 in 1868 will exceed 30,000 at the next census, and that few towns present such strong inducements to the merchant, mechanic and business man of every class for a permanent residence, as are presented by the City of Fort Wayne.
